"She believed in me until I  
could believe in myself."

-A Family Member

## Adult Peer Family Support

For Families of Adults that are  
non-Title XIX (without AHCCCS)  
and enrolled in SMI services

# DO YOU NEED Support?

## VISIONS CAN HELP WITH:

- Navigating the Adult Behavioral Health System with your adult family member not on AHCCCS
- Understanding how to best support your family member as they transition to the Adult Behavioral Health System
- Learning to support your loved one's goals
- Understanding and coping with your families unique needs and challenges
- How to access much needed services and supports
- How to rebuild family ties

## Family Support Providers

are parents who have raised their children or supported adult family members with behavioral health needs and understand the unique strengths and needs of families trying to understand a sometimes difficult system.

*Call or visit us online*

*about the opportunities*

*available for families.*

**[www.hopeaz.org](http://www.hopeaz.org)**

**[facebook.com/hopeazorg](https://facebook.com/hopeazorg)**

At Visions, "family" includes a person's "family of choice" as well as biological family members. Likewise we describe the family as including the person enrolled for services and all those that support them.

## We Believe

- Natural supports are necessary to everyone, whether you have a behavioral health diagnosis or not.
- Most families are Multi-Stressed, not "dysfunctional".
- With the support of Family Peers, they will be able to develop the skills and self confidence to work with their family member, not for them.
- No adult walks alone, and their best support will always be the people that love them.
