

Summary of current version and draft changes to AAC 9-6-202 table

Notes:

This document is not the official draft and will not be included as part of the rules; for any discrepancies with the official version, that document should be assumed correct.

Comments submitted online should apply to the drafts posted on the website; this is only a tool to assist in your review of the drafts.

Some morbidities have different timeframes for cases occurring in outbreaks or "sensitive occupations". Those modifications are not included here.

Italics are not included in this document but will be in the rules.

Some morbidities that are not explicitly listed in current and/or draft rule may be reportable under "emerging or exotic disease" or other criteria.

MORBIDITY (includes only morbidities on the current or draft HCP lists)	Proposed name revision (only if morbidity is already on current list)	HCP - current (does not include outbreak or occupation timeframes)	HCP - draft	HCP suggested change? (removal, addition, timing)
Amebiasis		5d	5d	N
Anaplasmosis	(separated from ehrlichiosis)	5d	5d	N
Anthrax		24h	24h	N
Arboviral infection			5d	Y
Aseptic meningitis, viral		5d	remove	Y
Babesiosis			5d	Y
Basidiobolomycosis		5d	5d	N
Botulism		24h	24h	N
Brucellosis		1d	1d	N
Campylobacteriosis		5d	5d	N
Chagas disease (American trypanosomiasis)	Chagas infection and related disease (American trypanosomiasis)	5d	5d	N
Chancroid		5d	5d	N
Chikungunya			1d	Y
Chlamydia infection, sexually transmitted	Chlamydia trachomatis infection	5d	5d	N
Cholera		1d	1d	N
Coccidioidomycosis (valley fever)		5d	5d	N
Colorado tick fever		5d	5d	N
Conjunctivitis, acute (outbreak only)		O	O	N
Creutzfeldt-Jakob disease		5d	5d	N
Cryptosporidiosis		5d	1d	Y
Cyclospora infection		5d	1d	Y
Cysticercosis		5d	5d	N
Dengue		5d	1d	Y

Summary of current version and draft changes to AAC 9-6-202 table

MORBIDITY (includes only morbidities on the current or draft HCP lists)	Proposed name revision (only if morbidity is already on current list)	HCP - current (does not include outbreak or occupation timeframes)	HCP - draft	HCP suggested change? (removal, addition, timing)
Diarrhea, nausea, or vomiting (outbreak only)		O	O	N
Diphtheria		24h	24h	N
Ehrlichiosis and Anaplasmosis	(anaplasmosis separated)	5d	5d	N
Emerging or exotic disease		24h	24h	N
Encephalitis, viral or parasitic	Encephalitis, parasitic	1d	24h	Y
Encephalitis, viral or parasitic	Encephalitis, viral	1d	1d	N
Enterohemorrhagic E. coli	Escherichia coli, Shiga toxin-producing	24h	1d	Y
Enterotoxigenic E. coli		24h	remove	Y
Giardiasis		5d	5d	N
Glanders			24h	
Gonorrhea		5d	5d	N
Haemophilus influenzae, invasive disease		5d	1d	Y
Hansen's disease (Leprosy)		5d	5d	N
Hantavirus infection		5d	1d	Y
Hemolytic uremic syndrome		24h	1d	Y
Hepatitis A		5d	1d	Y
Hepatitis B and Hepatitis D		5d	5d	N
Hepatitis C		5d	5d	N
Hepatitis E		5d	5d	N
Herpes genitalis		5d	remove	Y
HIV Infection and related disease		5d	5d	N
Influenza-associated mortality in a child		1d	1d	N
Kawasaki syndrome		5d	remove	Y
Legionellosis (Legionnaires' disease)		5d	1d	Y
Leptospirosis		5d	1d	Y
Listeriosis		24h	1d	Y
Lyme disease		5d	5d	N
Lymphocytic choriomeningitis		5d	1d	Y
Malaria		5d	5d	N

Summary of current version and draft changes to AAC 9-6-202 table

MORBIDITY (includes only morbidities on the current or draft HCP lists)	Proposed name revision (only if morbidity is already on current list)	HCP - current (does not include outbreak or occupation timeframes)	HCP - draft	HCP suggested change? (removal, addition, timing)
Measles (rubeola)		24h	24h	N
Melioidosis			1d	Y
Meningococcal invasive disease		24h	24h	N
Mumps		1d	1d	N
Pertussis (whooping cough)		24h	1d	Y
Plague		24h	24h	N
Poliomyelitis	Poliomyelitis (paralytic or non-paralytic)	24h	24h	N
Psittacosis (ornithosis)		5d	5d	N
Q fever		1d	1d	N
Rabies in a human		24h	24h	N
Relapsing fever (borreliosis)		5d	1d	Y
Respiratory disease in health care institution or correctional facility (outbreak only)			O	Y
Reye syndrome		5d	remove	Y
Rocky Mountain spotted fever	Spotted fever rickettsiosis (e.g., Rocky Mountain spotted fever)	5d	1d	Y
Rubella (German measles)		1d	1d	N
Rubella syndrome, congenital		1d	1d	N
Salmonellosis		5d	1d	Y
Scabies (outbreak only)		O	O	N
Severe acute respiratory syndrome	Novel coronavirus infection (e.g., SARS or MERS)	24h	24h	N
Shigellosis		5d	1d	Y
Smallpox		24h	24h	N
Streptococcal Group A: invasive disease	Streptococcal Group A infection, invasive disease	5d	5d	N
Streptococcal Group B: invasive disease in infants younger than 90 days of age	Streptococcal Group B infection in an infant younger than 90 days of age, invasive disease	5d	5d	N

Summary of current version and draft changes to AAC 9-6-202 table

MORBIDITY (includes only morbidities on the current or draft HCP lists)	Proposed name revision (only if morbidity is already on current list)	HCP - current (does not include outbreak or occupation timeframes)	HCP - draft	HCP suggested change? (removal, addition, timing)
Streptococcus pneumoniae (pneumococcal invasive disease)	Streptococcus pneumoniae infection (pneumococcal invasive disease)	5d	5d	N
Syphilis		5d	5d	N
Syphilis, congenital		5d	1d	Y
Taeniasis		5d	5d	N
Tetanus		5d	5d	N
Toxic shock syndrome		5d	5d	N
Trichinosis		5d	1d	Y
Tuberculosis, active disease		1d	1d	N
Tuberculosis latent infection in a child 5 years of age or younger (positive screening test result)		1d	1d	N
Tularemia		24h	24h	N
Typhoid fever		24h	1d	Y
Typhus fever		1d	1d	N
UNEX		24h	remove	Y
Vaccinia-related adverse event		1d	1d	N
Vancomycin-resistant or Vancomycin-intermediate Staphylococcus aureus		24h	24h	N
Vancomycin-resistant Staphylococcus epidermidis		24h	24h	N
Varicella (chickenpox)		5d	5d	N
Vibrio infection		5d	1d	Y
Viral hemorrhagic fever		24h	24h	N
West Nile virus infection		5d	5d	N
Yellow fever		24h	24h	N
Yersiniosis	Yersiniosis (enteropathogenic Yersinia)	5d	1d	Y
Zika virus infection			1d	Y
