

Midwifery Scope of Practice Comments February 20 through February 26, 2013

This is good	Mon, Feb 25, 2013 5:12 PM
A woman should have a birth of her own choosing it is not a government right or decision! Midwives have less complications than the hospitals. We have a right to choose!	Sun, Feb 24, 2013 10:39 AM
Three out of four of my children were delivered by my midwife in Prescott. She was professional, responsible, well-educated and highly experienced. She knew when to refer for medical care and when to transport to the hospital. Please continue to allow the midwives to care for mothers as they have been able to do up to the present. This alternative choice for mothers who want it, should continue to be available without over-regulation.	Thur, Feb 21, 2013 6:05 PM
