

## Where to Get Flu Vaccine

### 1. Primary Care Provider

If you are looking for a particular vaccine, we suggest you call and ask the questions below. Don't forget to ask if you are up-to-date on your immunizations each time you have a yearly physical.

- Does your provider carry the vaccine?
- If not, can your provider order the vaccine?
- Can a script be written so you can pick it up at a pharmacy?
- Is the vaccine covered by insurance?

### 2. Community Health Centers

Community Health Centers accept most insurance and also offer the uninsured a sliding scale for services provided. Adults can receive immunizations and also general medical treatment. To find a Community Health Center near you visit <http://www.aachc.org/aachc-members>

### 3. Walk-In Care Clinics

These clinics are often located in pharmacies or other retail locations and immunizations are available at most locations. We do suggest that you call prior to going. Many are open 7 days a week and accept insurance. Questions to consider:

- Is your vaccine covered by insurance?
- Do they carry the vaccine you need?

### 4. Immunization Clinics

Clinics are held state-wide in various locations. Call or go to the website to locate a clinic near you. You can also walk in to their main site.

### 5. Your Local Pharmacy

Many pharmacies now are able to administer vaccines, like the flu vaccine and Tdap (pertussis or whooping cough), to adults. Questions to consider:

- Does your pharmacy give shots?
- How much does the vaccine cost?
- Does your insurance cover it?
- Does your insurance cover a vaccine administered at a pharmacy?

## 6. County Health Departments

Most county health departments carry flu vaccine. Please contact your county health department for information on immunization clinic hours and fees.
