

ASIS Roadmap: Using ASIS for Reporting Vaccinations and Inventory Management

Reporting Administered and Historical Immunizations

Administered vaccinations are vaccinations that were administered by your practice. Vaccinations administered by your practice **must** be entered into ASIIS as an **administered** dose. This process will ensure that lot numbers are decremented from your inventory in ASIIS. To view, edit and add an administered vaccination, after selecting a patient, select the **View/Add** link from the **Vaccinations** tab.

On the next screen you will need to update the VFC Eligibility status. Select the most appropriate eligibility for the patient and click **Continue**.

VFC Eligibility Update
Current VFC Status: AHCCCS

Update VFC Eligibility

--select--
--select--
Ineligible
AHCCCS
KidsCare
Nat. American or Nat Underinsured
Uninsured

Cancel Continue

- **Ineligible**- A child that does not qualify for VFC
- **AHCCCS**- A child who is Medicaid eligible. In Arizona, children whose health insurance is covered by the Arizona Health Care Cost Containment System (AHCCCS)
- **KidsCare**- A child who has insurance under AHCCSS but have to pay a deductible
- **Nat. American Indian or Native Alaska**: As defined by the Indian Health Care Improvement Act (25 U.S.C. 1603)
- **Uninsured**: A child who has no health insurance coverage
- **Underinsured**: A child who has health insurance, but the coverage does not include vaccines; a child whose insurance covers only selected vaccines (VFC eligible for non-covered vaccines only). Underinsured children are eligible to receive VFC vaccine only through a Federally Qualified Health Center (FQHC), or Rural Health Clinic (RHC) or under an approved deputization agreement

To attach the administered vaccine information to the patient record click in the 'Manufacturer' text box or on the 'click to select' link to enter manufacturer information. This process will ensure that the Lot number is decremented from your inventory in ASIIS. The 'Select Lot Number' box will appear. The box will display all of the lot numbers that are listed in your ASIIS inventory for that particular vaccine. To attach the lot number to the patient, click the arrow next to the vaccine that was administered. If your inventory is not stored in ASIIS, the Select Lot Number pop-up box will be empty.

VFC providers are required to attach the administered lot number information to the patient record.

Add **Historicals** to a patient if your practice **DID NOT** administer the vaccine. Historical vaccines are entered if the patient received the vaccination at a different facility. Proof of receiving these shots is required (i.e. blue book, physician reports) along with valid signatures. To enter a vaccination **that was not** administered by your practice, enter the date in an empty box next to the appropriate vaccine and click **Add Historicals** at the bottom of the page.

Vaccine Ordering

Ordering VFC vaccines

What is vaccine ordering?

- Vaccine ordering is the process by which designated users order VFC vaccines needed at their facility and also have the ability to transfer vaccines to other locations

Before placing your order:

- Complete your inventory reconciliation
- Send in your temperature logs to the VFC Vaccine Center
 - Temp logs must be current up to the day before you send them to VFC Vaccine Center
- Make sure it has been a month since your last VFC vaccine order
 - Ordering occurrence is based on the last digit of the providers PIN # (0-4 first and second week of the month, 5-9 third and fourth week of the month)
- Plan ahead - Know what vaccines to order

Placing an Order

Click **Create/View Orders** under the **Orders/Transfers** tab. If you have completed your inventory reconciliation you will see the screen below. If not you will be redirected to the reconciliation screen. To begin placing your order, click on the **Create Order** button.

Backordered Orders				
Select	Order Number	PIN	Submit Date	Backorder Date

Common Reasons for Denied Order

- Ordering too frequently
- Not faxing temperature logs to the VFC Vaccine Center before placing your order
- Inventory not reported for all VFC Vaccine received
- Temperature excursions on temperature logs
 - This impacts more than your vaccine order, a Vaccine Center staff member will be contacting you for additional information

Inventory Management

Receiving Vaccine Shipments
Inventory Reconciliation
Editing/Adding Private Vaccine

Entering VFC Vaccine Shipments in ASIIS

Once you have received your vaccine shipment and put the vaccine in the refrigerator and/or freezer, the shipped vaccine must be entered into your ASIIS inventory immediately. Click the arrow next to the order number to enter the shipped vaccine order into your ASIIS inventory.

Note: Please do not enter the VFC vaccine manually into ASIIS.

Rejected Transfers					
Select	Transfer Number	PIN	Submit Date	Receiving IRMS/Facility	Reject Date

Enter the **Receipt Quantity** (amount received) and the **Rejected Quantity** (the amount rejected by your practice, if any). If you reject any vaccines you **must** select a reason for rejecting the vaccine. The **Manufacturer**, **Lot #**, and **Expiration Date** will automatically be populated. Click the **Receive** button when completed.

Receiver: DESIREE LONG (DESIREE1066)
 Original Order#: 97738
 Comments:

Frozen vaccines are shipped separately from refrigerated VFC vaccines. If your order contains frozen vaccine, you will not receive it with the refrigerated vaccine shipment. The frozen vaccine must be rejected when you receive the refrigerated vaccine shipment. In the example below we have entered the **Receipt Quantity** for Varicella as “0” and the **Rejected Quantity** as “10” (equal to the order amount) because the shipment did not contain the Varicella vaccine. From the drop down under **Reason for Rejecting** select **Shipment is incomplete**.

What is inventory reconciliation?

- Inventory Reconciliation is the process of adjusting the ASIIS vaccine inventory to match the physical vaccine inventory in the storage unit. It is used to report doses that did not automatically decrement from the inventory.

How often should we reconcile our inventory?

- Consider reconciling your inventory daily or weekly. The system is set to prompt you to reconcile every 14 days
- All providers must reconcile their inventory before placing a VFC vaccine order

Under **Lot Numbers** in the navigation bar, click **Reconciliation**. If you need to reconcile your inventory you will see a similar screen like the one below.

You have the option to **print** your reconciliation, **reset** the numbers that you input in physical inventory, **save** to update all the information that you have entered under the physical inventory column as well as clear out any vaccines that have been marked expired and/or inactive or **submit** your entire inventory to the VFC team. The **print** option displays a printable reconciliation worksheet to be used at your facility.

Reconciliation Worksheet

Organization (IRMS): TEST PROVIDER – TEST SYSTEM (63928)
 Facility: TEST PROVIDER – TEST SYSTEM

Vaccine	Lot Number	Exp Date	Quantity on Hand	Physical Inventory	Adjustment	Reason	Public	Inactive
DTaP	AC14B164AA	02/12/2015	8				Y	
DTaP/Hib/IPV	440599AA	10/31/2015	20				N	
Hep A 2 dose - Ped/Adol	AHAVB677BA	05/23/2015	5				Y	
Hep B - Ped/Adol - presv. free	AHBVC203AB	02/15/2015	7				Y	
IPV	H1452-1	09/15/2014	7				Y	
MMR	H010134	05/17/2014	8				Y	
Mening. (MCV4P)	U4446AC	08/15/2014	4				Y	
Td (Adult)	U4165AA	04/18/2014	8				Y	
Tdap	U4421AA	01/18/2015	1				Y	
Tdap	U4655AA	12/13/2015	3				Y	
Varicella	H018015	10/01/2014	8				Y	

Once you have filled in all of the fields under the physical inventory column, click the **Submit Monthly Inventory** button at the bottom of the page. You must enter a value for **ALL** vaccines listed on the physical inventory screen. This sends the reconciliation to the VFC team and gives you the privilege to place a VFC vaccine order.

Editing/Adding Private Vaccine

A lot number is an identification number assigned to a particular quantity from a single manufacturer. This number can be found on the outside of the vaccination packaging. Under the **Lot Number** tab in the navigation bar, click the **Search/Add** link. The Lot Number Maintenance screen will appear. Choose a vaccine type and click **Search**. This will display all lot numbers for that vaccine type. If the lot number you are searching for does not appear, click **Add** to add the lot number to your inventory.

Showing 1 to 10 of 28 entries

Add

The next screen will prompt you to add the manufacturer, lot number, expiration date, specify if the vaccine is publicly supplied (select “no” for private vaccine), select a reason for change, date of transaction (this is automatically filled with the current date) and the number of doses added. All this information is necessary so that vaccinations can be auto-decremented from ASIIS. Click **Add** when all required fields in **red** are completed.

Lot Number Maintenance [Add]	
Vaccine:	DTaP
Manufacturer:	GLAXOSMITHKLINE-SKB ▼
Lot Number:	136858613
Facility:	--select-- ▼
Expiration Date:	05/05/2019
