

# **Next Steps: Zika Planning and Response**

## **Audience Response Survey**

The logo features a light gray silhouette of the state of Arizona on the left. To its right, the text "ARIZONA 2016 ZIKA SUMMIT" is stacked vertically in a light gray, sans-serif font. The entire logo is set against a background of several overlapping, light gray circular arcs that resemble a globe or a stylized path.

# How to Use Audience Response System (ARS)

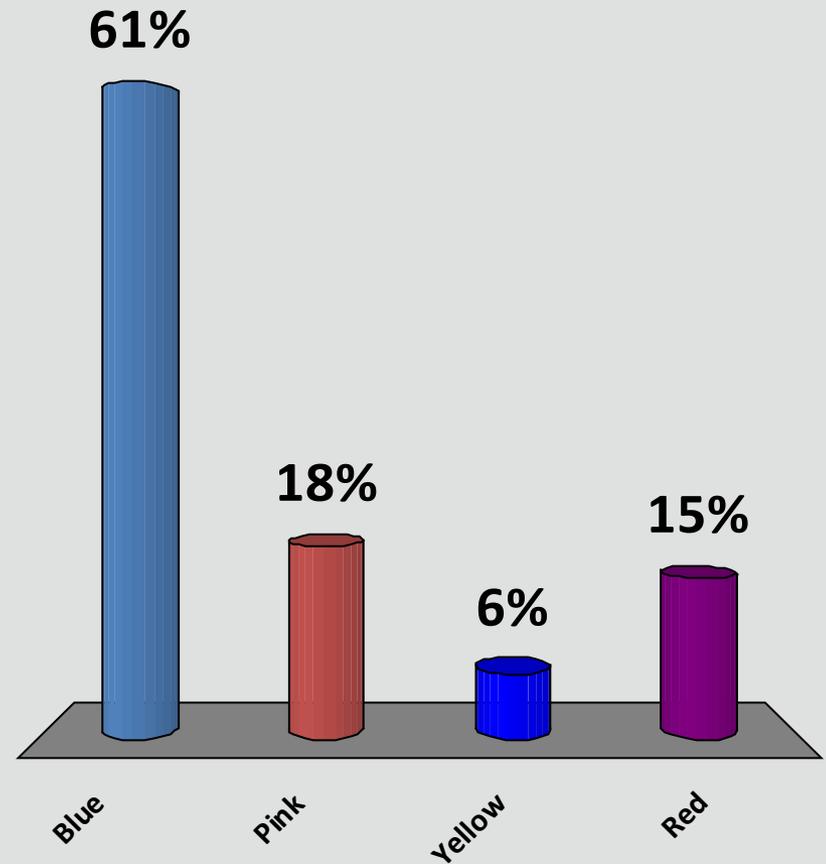

- When the polling is open, select the appropriate choice (a letter or a number between **1/A to 0/J**)
- ARS will accept the last answer you have selected before the poll closes

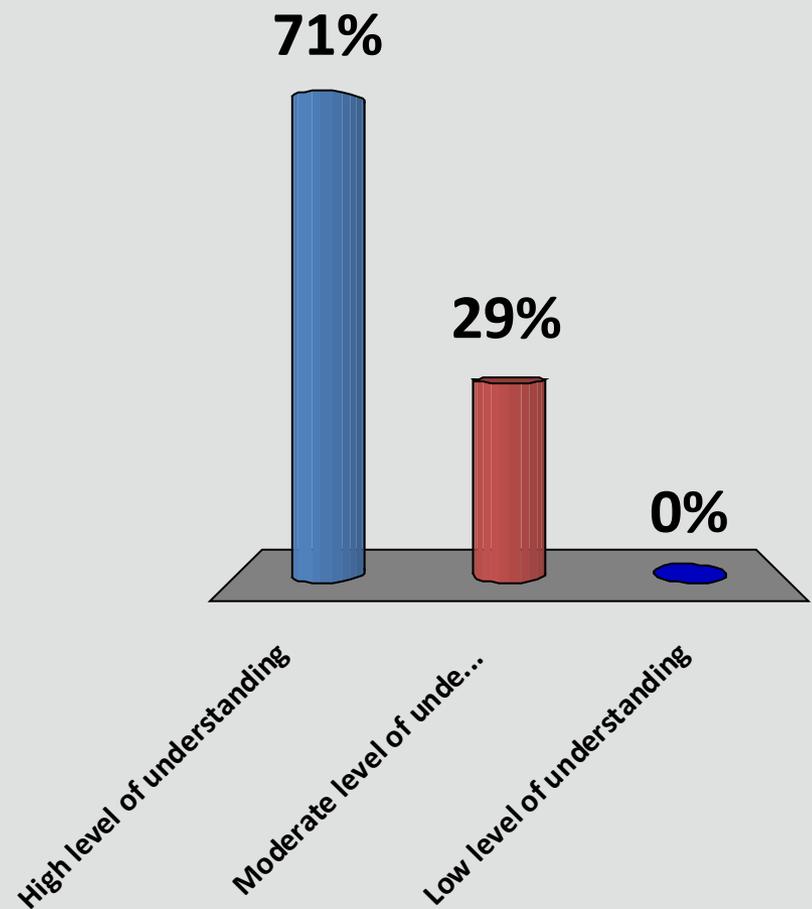

# Test Question: *What is your favorite color?*

- A. Blue
- B. Pink
- C. Yellow
- D. Red

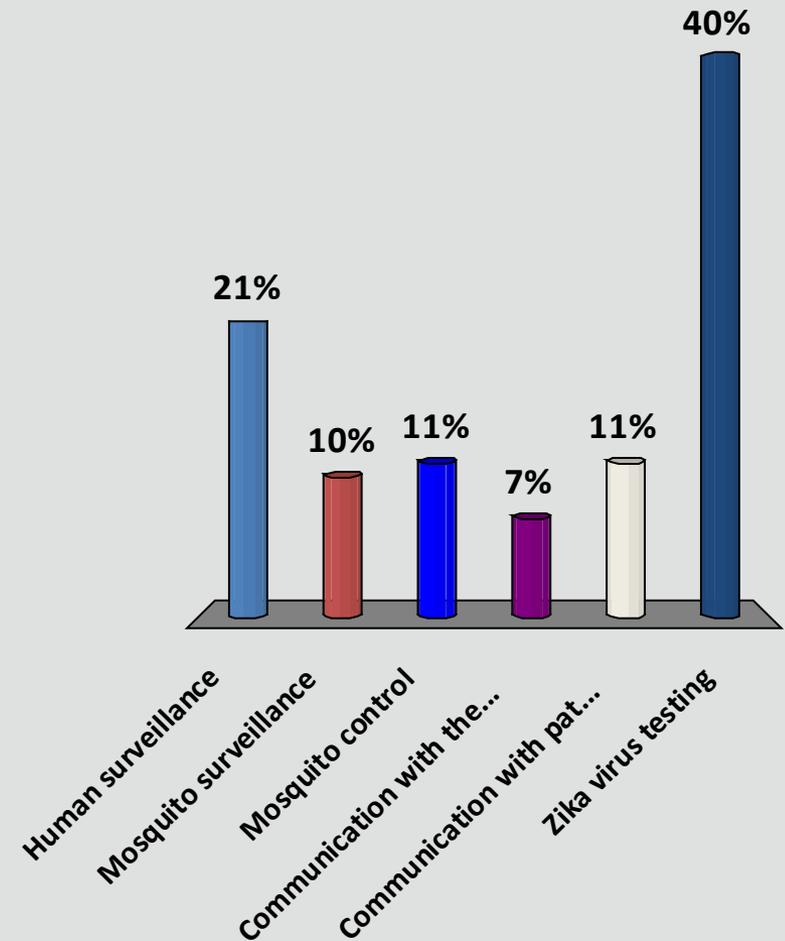

# 1. What is your level of understanding of Zika virus after attending this summit?

- A. High level of understanding
- B. Moderate level of understanding
- C. Low level of understanding

## 2. In what area did your Zika virus knowledge most increase after attending this summit?

- A. Human surveillance
- B. Mosquito surveillance
- C. Mosquito control
- D. Communication with the public
- E. Communication with patients
- F. Zika virus testing

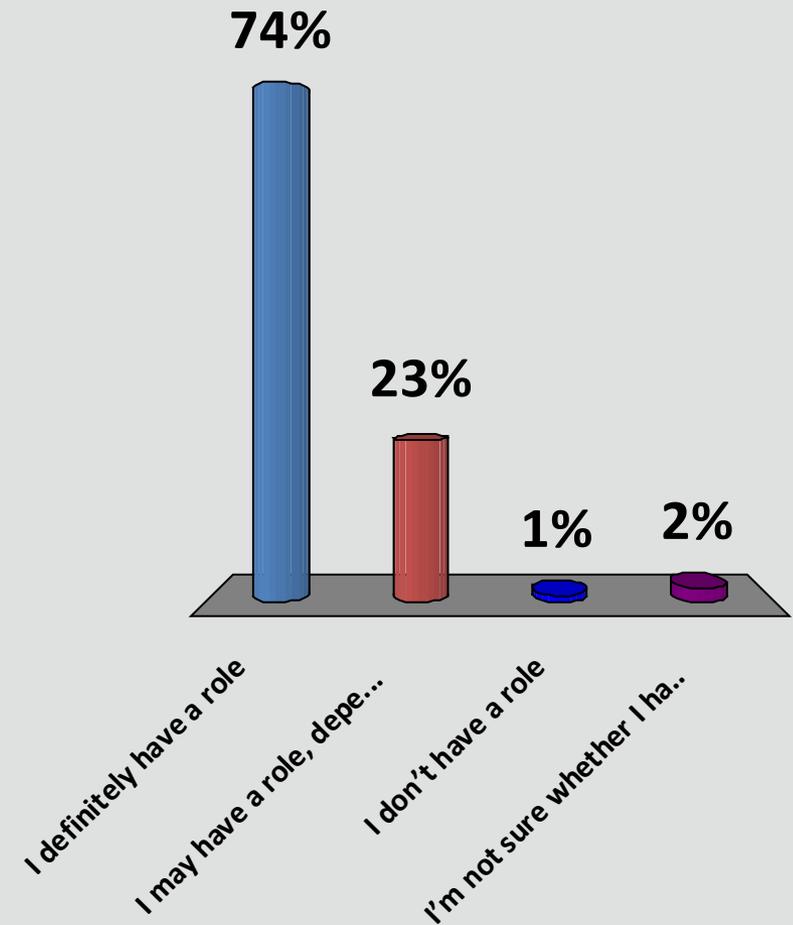

3. How confident are you that you **have** a role in Zika virus prevention and response in AZ?

A. I definitely have a role

B. I may have a role, depending on the scenario

C. I don't have a role

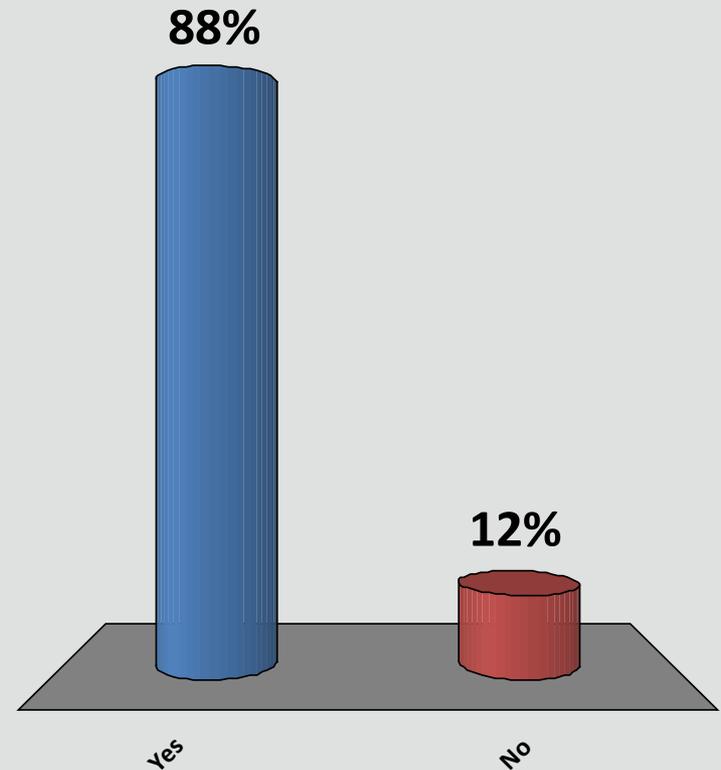

D. I'm not sure whether I have a role

4. Do you have a better understanding **of** your role in Zika virus prevention and response after attending this summit?

A. Yes

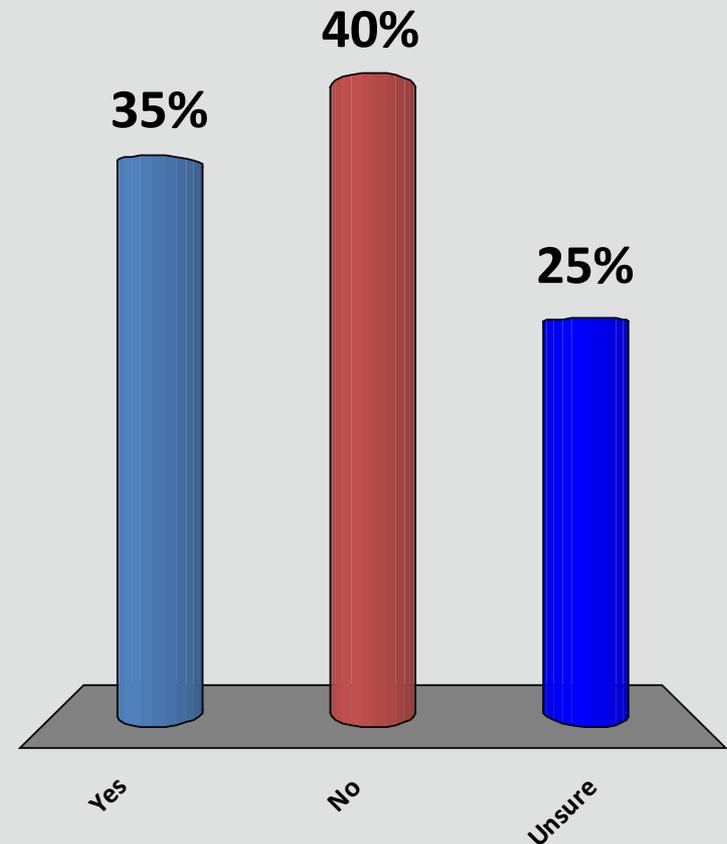

B. No

With the next series of questions (5a to 5e), we are interested in understanding:  
What gaps still exist in Arizona regarding Zika virus prevention and response?

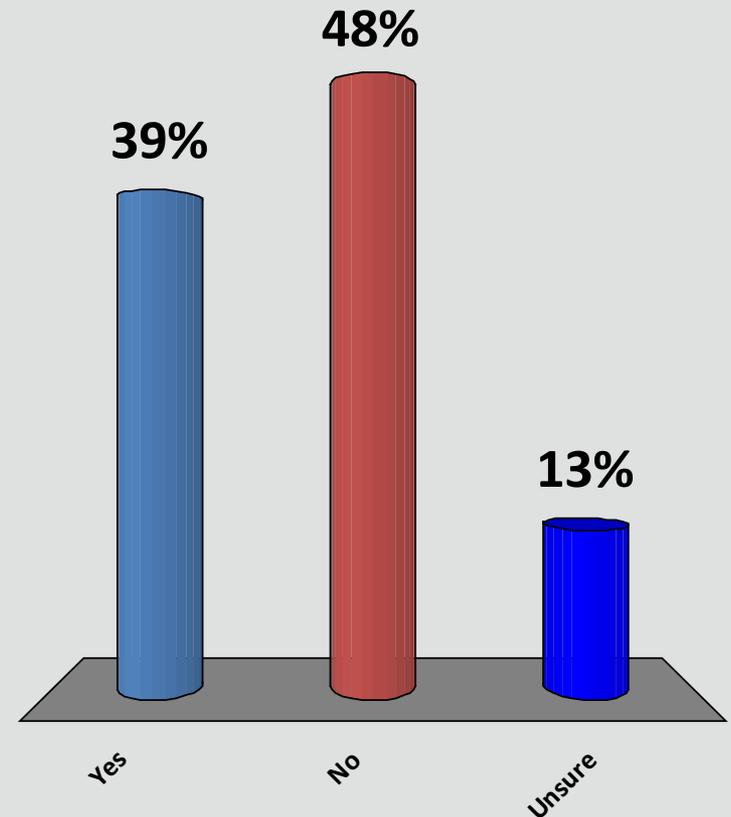

5a. Do you think human surveillance is a current gap in Arizona's Zika virus prevention and response efforts?

- A. Yes
- B. No
- C. Unsure

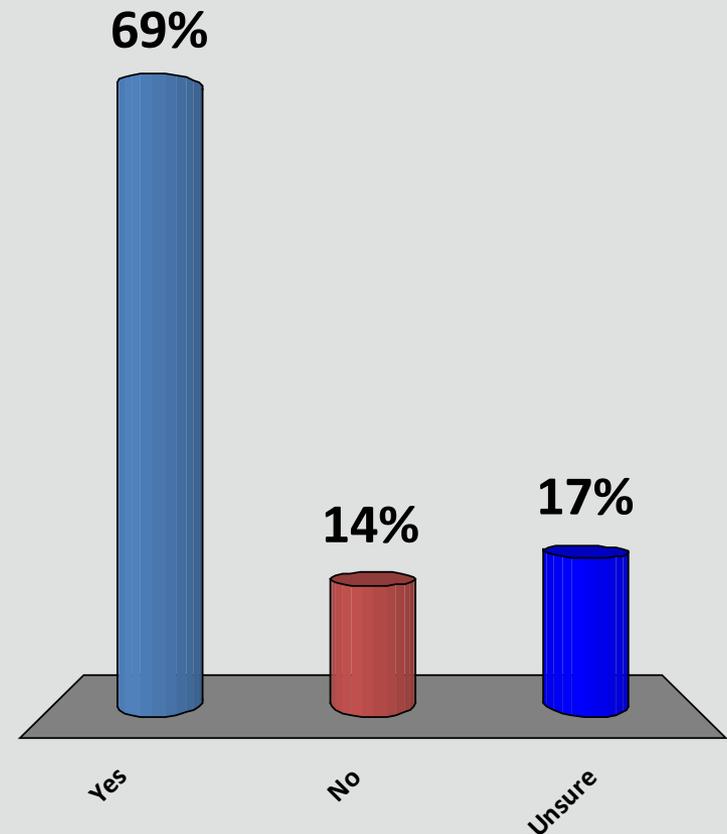

5b. Do you think mosquito surveillance is a current gap in Arizona's Zika virus prevention and response efforts?

- A. Yes
- B. No
- C. Unsure

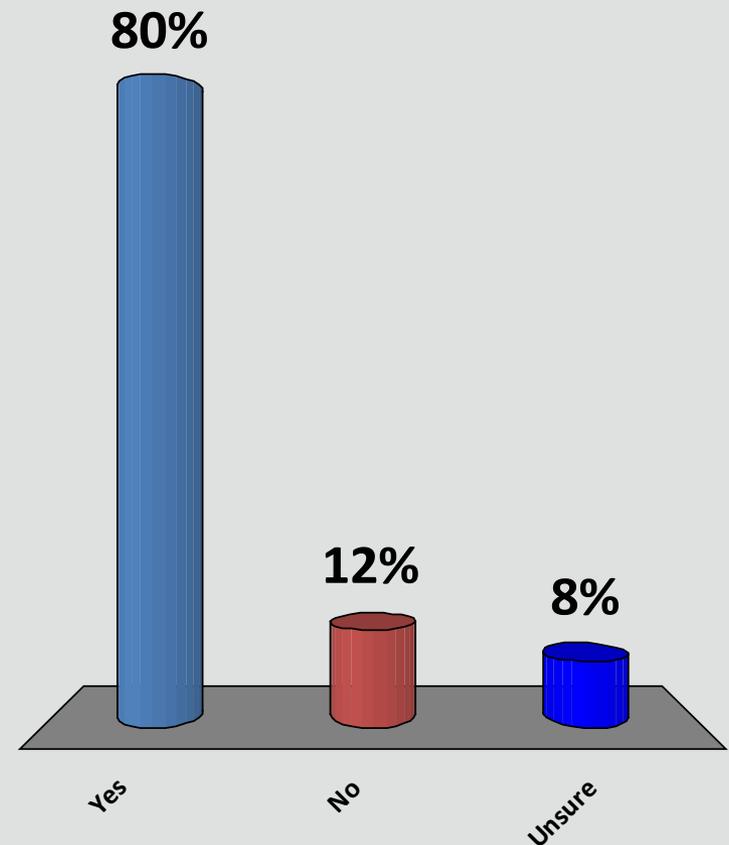

5c. Do you think mosquito control is a current gap in Arizona's Zika virus prevention and response efforts?

- A. Yes
- B. No
- C. Unsure

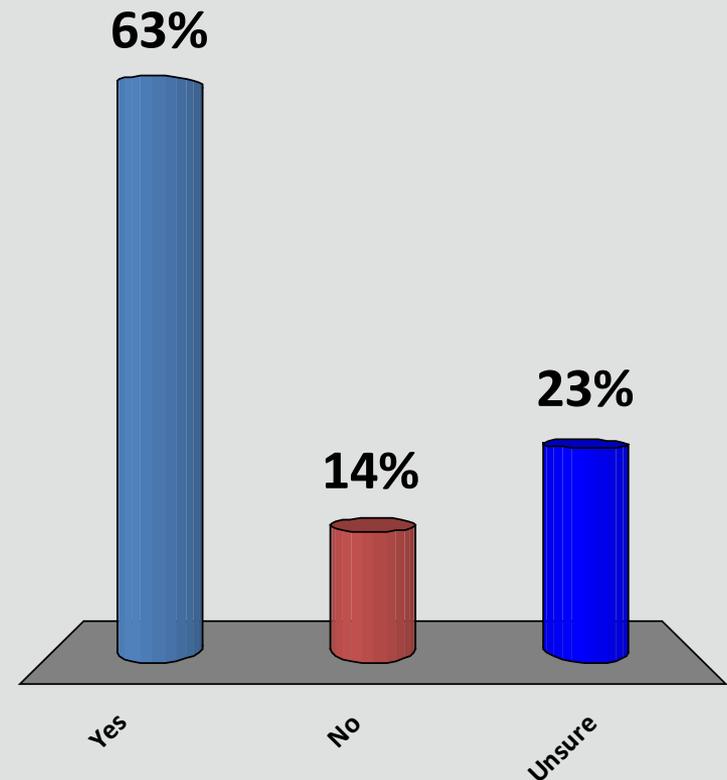

5d. Do you think communication with the public is a current gap in Arizona's Zika virus prevention and response efforts?

- A. Yes
- B. No
- C. Unsure

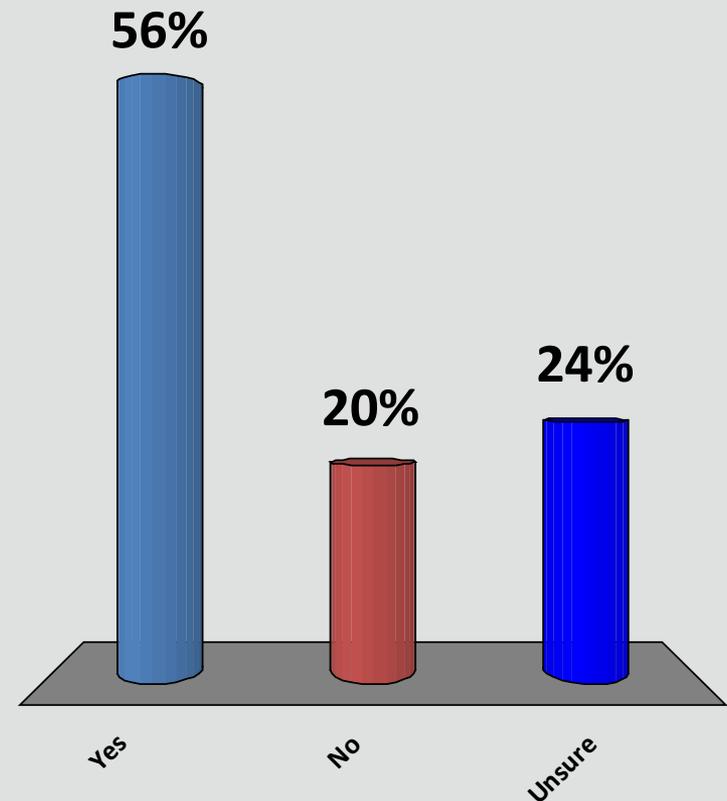

5e. Do you think patient communication is a current gap in Arizona's Zika virus prevention and response efforts?

- A. Yes
- B. No
- C. Unsure

5f. Inclusion of key partners is an important part of Arizona's Zika virus prevention and response efforts: ***Are there important partners who you think have not been included in planning?***

- A. Yes
- B. No
- C. Unsure

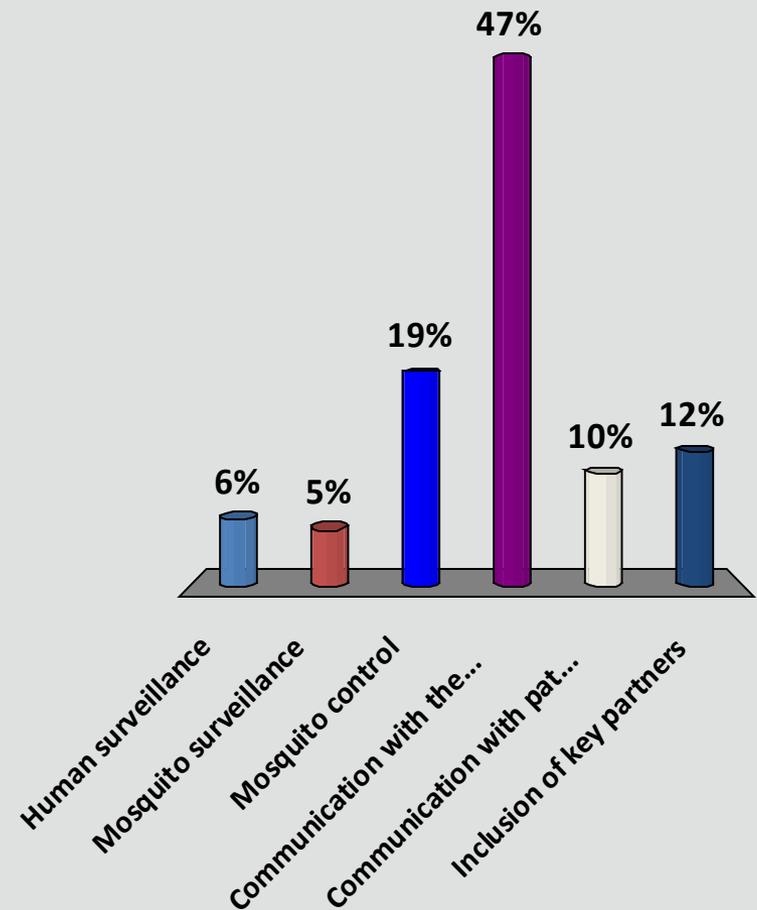

**We have scribes in the  
audience...**

***Who are some of the key  
partners we should include in  
Zika preparedness and response  
planning?***

## 6. What do you think is Arizona's biggest gap in Zika virus preparedness?

- A. Human surveillance
- B. Mosquito surveillance
- C. Mosquito control
- D. Communication with the public
- E. Communication with patients
- F. Inclusion of key partners

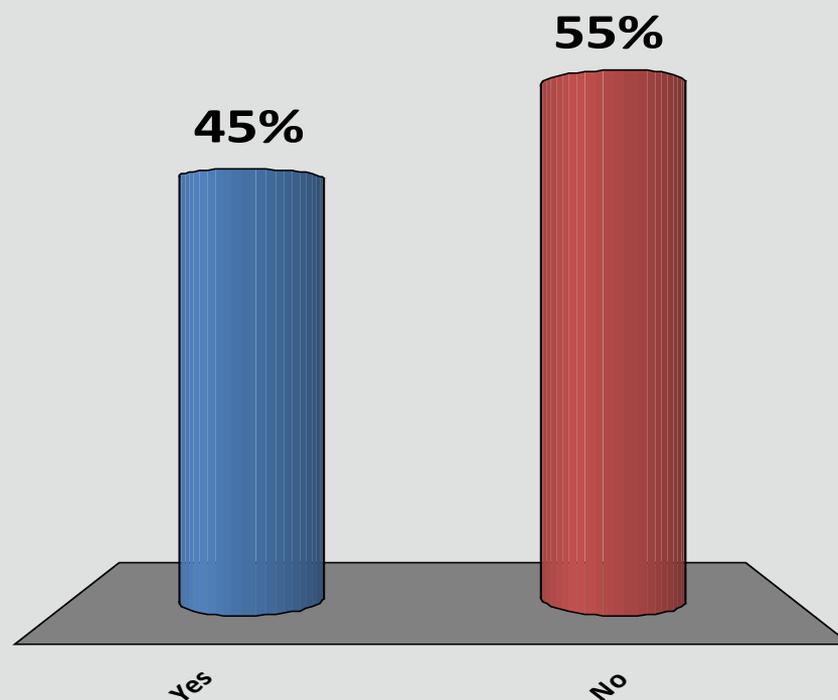

With the next series of questions (7a to 7c), we are interested in understanding:  
What resources do you still need to address Zika virus?

7a. Do you need more information about Zika virus prevention or response?

A. Yes

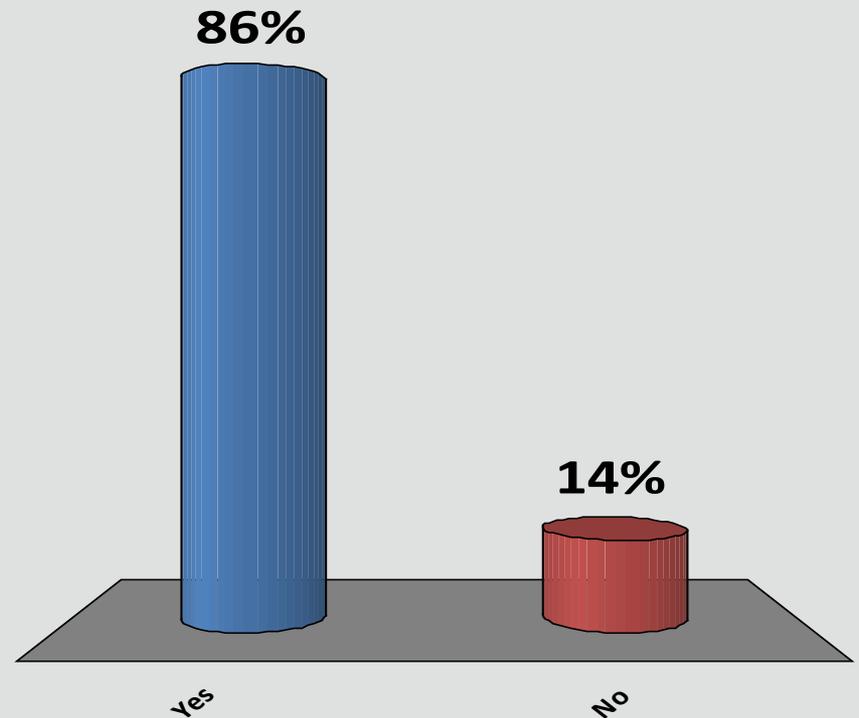

B. No

7b. Do you need more funding for Zika virus prevention or response?

A. Yes

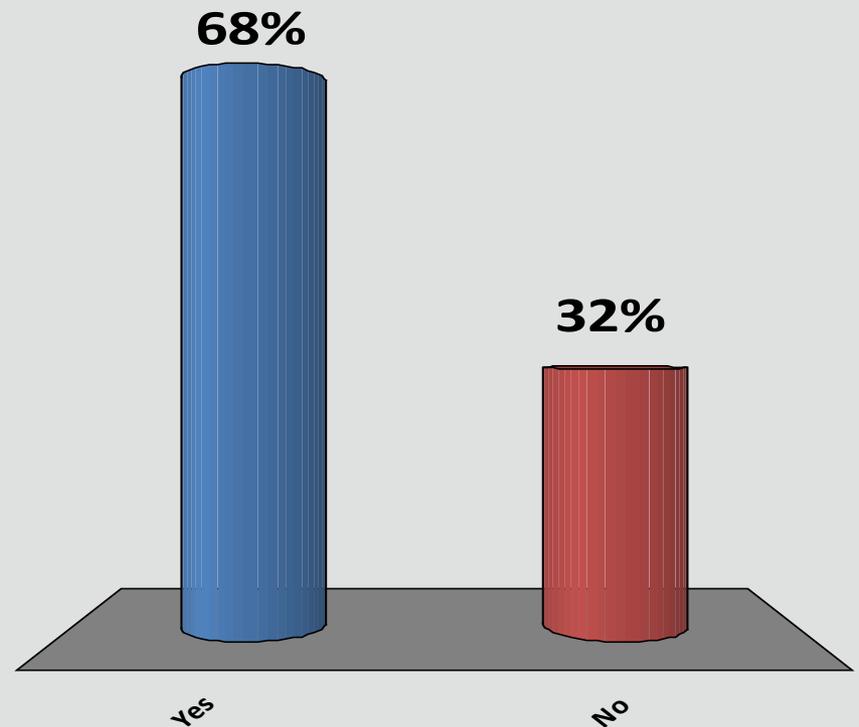

B. No

7c. Do you need more staffing for Zika virus prevention or response?

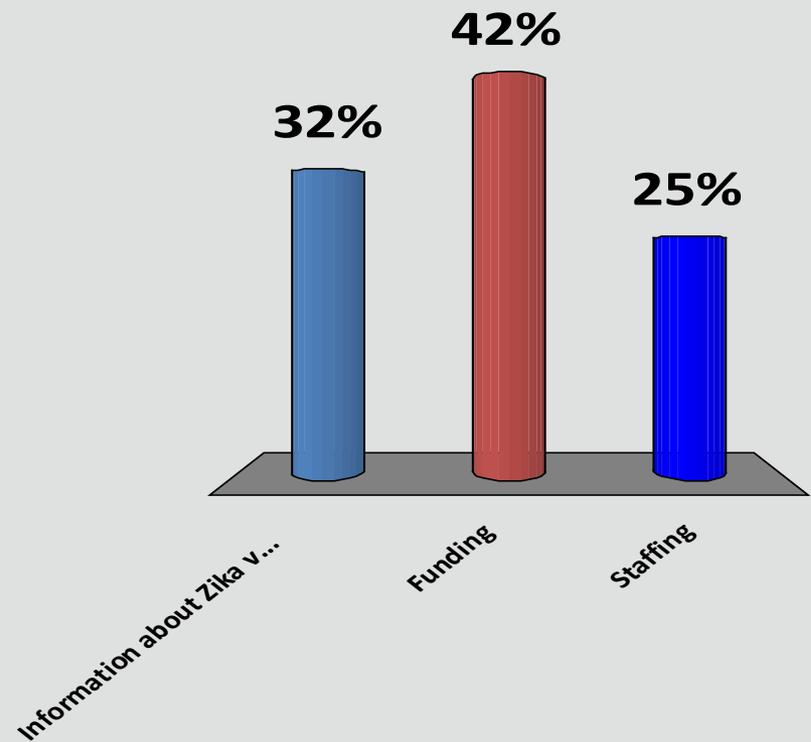

A. Yes

B. No

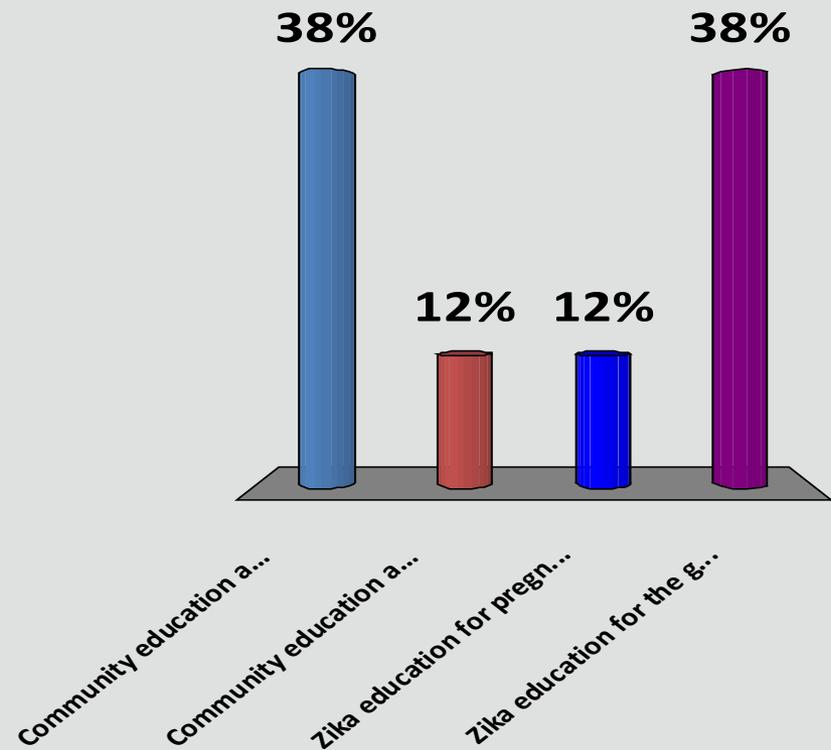

8. What is your most important remaining need in order to prevent or respond to Zika virus?

- A. Information about Zika virus prevention or response
- B. Funding
- C. Staffing

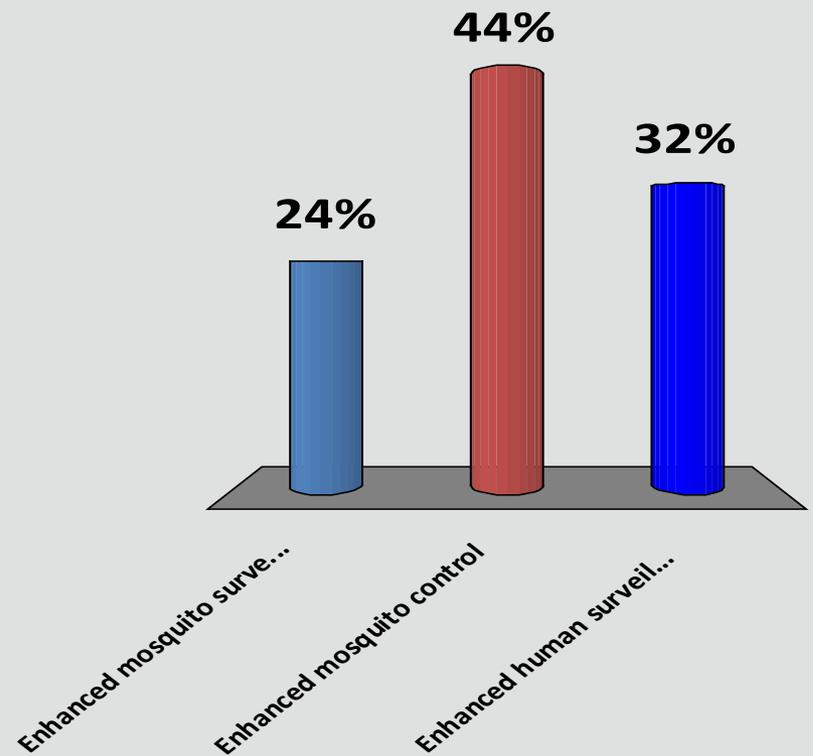

# 9. What do you think is Arizona's top communication priority related to Zika virus?

- A. Community education about reduction of mosquito populations
- B. Community education about mosquito bite prevention
- C. Zika education for pregnant women
- D. Zika education for the general public

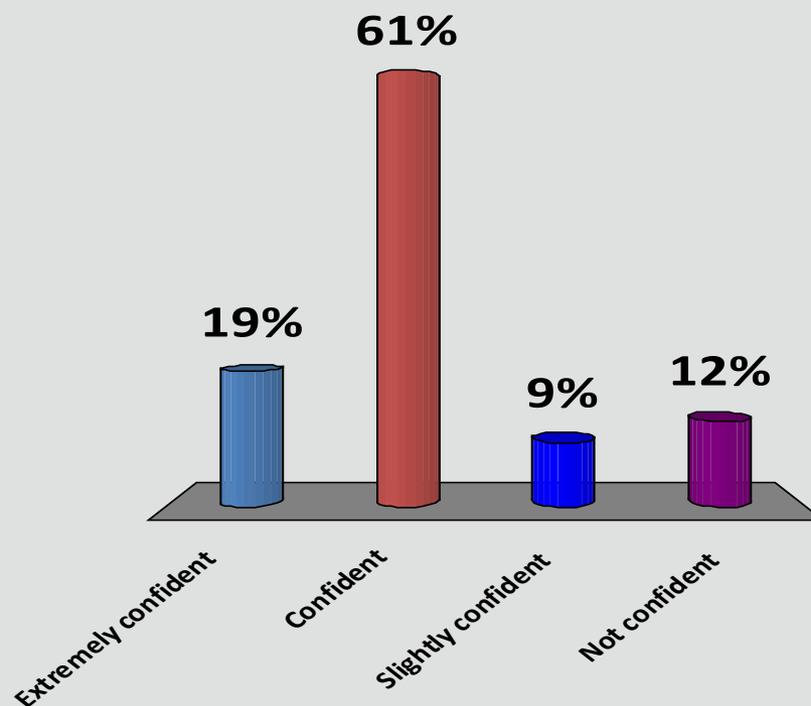

# 10. What do you think is Arizona's top response priority related to Zika virus?

- A. Enhanced mosquito surveillance
- B. Enhanced mosquito control
- C. Enhanced human surveillance and testing

# 11. How confident do you feel about Arizona's ability to respond to Zika virus?

- A. Extremely confident
- B. Confident
- C. Slightly confident
- D. Not confident
