SUBJECT: Requirements for 2012 (NAACCR 12.2)

The 2012 cases must be abstracted in NAACCR Record Layout Version 12.2, which included conversion to Collaborative Stage Version 02.04. All facilities should have consulted with their software vendor about these changes.

The important notes about 2012:

- All 2012 cases and after will be required to be abstracted and coded in the updated NAACCR record layout Version 12.2.
- All 2012 cases and after will be required to be completed in Collaborative Stage Version 02.04. Once this version is installed, it will be used to code all cases diagnosed from 2004 forward.
- The edits program was updated to the NAACCR Version 12.2 Edits Metafile.

Documents included in packet for 2012 include:

- Arizona Cancer Registry Coding Handbook includes the Commission on Cancer *Facility Oncology Registry Data Standards, Revised 2012* and the *Arizona Cancer Registry Supplement*. Start using this for any remaining cases needing abstracting for 2012. If you decide to print the document, we recommend duplex print in order to maintain the correct pagination.
