Enfamil Reguline - new non-contract formula

Contact: Karen Henry

A new formula made by Mead Johnson called Reguline is now WIC approved. It is considered a non-contract in Arizona (so eligible for fragile needs participants and requires state approval). The formula has partially hydrolyzed proteins and a blend of two prebiotics to promote digestive health and soft stools. It will be added to our formulary as a non-contract formula. For further info on the formula can be found here: <http://www.enfamil.com/products/enfamil-reguline> . Thank you.
