

WIC PRICE/STOCK SURVEY INSTRUCTIONS WORKEET

All Vendor Applicants and Authorized WIC Program Vendors are required to complete an on-line price/stock survey, also known as a market basket assessment. The online survey consist of a market basket of specific foods (listed below) that reduces the number of prices needing to be collected and ensure that the analysis being completed is consistent and uniform.

Vendor Applicants complete and submit the on-line survey as part of the authorization process. Authorized Vendors are required per the Vendor Contract to submit the on-line survey every six months (June and December).

Listed below is information to assist you in preparing for the completion of the on-line price/stock survey. The information provided must reflect the **actual** shelf price **at the time of completion** for each WIC food item currently on the shelf or in inventory housed at your store location. **Do not estimate or project prices. You must not leave spaces blank, or the information you submit will not be calculated correctly.**

Carefully read through the Arizona WIC Program Minimum Stock Requirements in Section 2, Foods of the Arizona WIC Program Vendor Manual and enter the **highest** actual shelf price for each WIC food item in the survey (**except milk, which is the lowest cost**). Fill in the price for the **exact size listed or selected**. You can use the table below to document your prices prior to logging into the website.

Item	Brand/Variety	Size	Enter Size for prices obtained	Price
