

COVID-19 Vaccine Boosters

Everyone ages 18 and older are recommended to get a booster shot. Regardless of the manufacturer you received for your initial dose(s), any U.S. authorized COVID-19 vaccine can be used for a booster dose.

If you received **Pfizer-BioNTech** or **Moderna** COVID-19 vaccines:

- You should get a booster dose **at least 6 months after** completing your primary COVID-19 vaccination series.

If you received **Johnson & Johnson's Janssen** COVID-19 vaccine:

- You should get a booster dose **at least 2 months after** your shot.

Have specific questions about the COVID-19 booster? Please discuss with your medical provider.

Visit azhealth.gov/findvaccine or call our **COVID-19 Hotline** at **1-844-542-8201** to find a location near you.
