

How to Create & Receive Transfers in ASIIS

Requirements & Important Notes:

- Transfer requests must be **approved** by the AIPO in ASIIS **before** transport can take place.
 - A transfer request must be submitted to the AIPO in ASIIS by the sending facility.
- Providers with an open vaccine incident are not allowed to initiate a transfer or accept a transfer until the vaccine incident has been closed.
- All doses must be packed appropriately and a data logger MUST be used during transport.

Step 1 (sending): After logging into ASIIS, select the Orders/Transfer tab from the left hand menu & then select Create/View Orders under the Orders/Transfers tab.

Once on the Create/View Orders page, click Create Transfer.

Create Transfer

Important Note: **PAN** doses can only be transferred between approved Pandemic Provider Sites.

Step 3:

- Both the sending and receiving facility must email up-to-date in-range data logger reports to ArizonaVFC@azdhs.gov the same day the transfer request was submitted. If the sending & receiving facility fail to submit data logger reports timely, the transfer request will be denied.

**Data logger reports must be in an approved file format (.xls, .txt, .csv or .ltd).

Step 4 (receiving):

- The receiving facility must inspect the vaccines. If the receiving facility chooses to accept the transferred vaccines, they will immediately place the vaccines in the appropriate storage unit (refrigerator or freezer).
- The receiving facility must also receive the transferred doses in ASIIS by selecting the Orders/Transfer tab from the left hand menu & then selecting Create/View Orders under the Orders/Transfers tab.

- Once on the Create/View Orders page, click the Select arrow to the left of the Transfer that needs to be received in ASIIS.
