

4/5/2021

Enfamil NeuroPro Enfacare powder is changing in size from 12.8 oz to 13.6 oz and from 82 reconstituted ounces to 87 reconstituted ounces. This size change will not alter the number of cans that any category or age of infant receives. The UPC number on the can is not changing. The subcategory for Enfamil NeuroPro Enfacare powder will now be:

31/011 ENFACARE 12.8 OR 13.6OZ

There may be a time period where both the old and new sizes are present in the retail space. Clients can purchase either size. As this change does not affect the number of cans that infants receive, clients were not contacted by the state office. Local agencies will not be required to contact clients to inform them of this change, but should be aware of the change in case clients have questions.

December 16, 2020

To: All State, Territory and Indian Tribal Organization WIC® Programs

Subject: Enfamil® NeuroPro EnfaCare® Size Change

Mead Johnson is continuously innovating our products and pursuing new formulations to ensure all babies and toddlers get the best start in life. As part of this ongoing commitment, I am writing to advise you of updates to our Enfamil NeuroPro EnfaCare powder formula.

Enfamil NeuroPro EnfaCare small powder is undergoing a minor formulation update and changing from 12.8 dry ounces to 13.6 dry ounces.

**These changes do not impact the product name or the UPC code. Reconstituted ounces are changing from 82 fl. oz. to 87 fl. oz., but this does not change the monthly allotments.**

	Product Name	Dry Ounces	Reconstituted Ounces	List Number	UPC Code
<b>Current SKU</b>	<b>Enfamil NeuroPro EnfaCare Pwd</b>	<b>12.8 oz.</b>	<b>82 fl. oz.</b>	<b>1261-05</b>	<b>300875122082</b>
<b>New SKU</b>	<b>Enfamil NeuroPro EnfaCare Pwd</b>	<b>13.6 oz.</b>	<b>87 fl. oz.</b>	<b>1977-01</b>	<b>300875122082</b>

The new 13.6 oz. Enfamil NeuroPro EnfaCare powder will begin shipping in April 2021.

Attached you will find a PDF of the 13.6 oz. Enfamil NeuroPro EnfaCare label for your reference.

If you have any questions or concerns, please contact Jeff Martin (812) 429-6000, Kathy Decker (812) 429-8758, Cheryl Cook (812) 429-5789, or Trish Ferrell (812) 429-7345.

Thank you,

J. Michael Milligan  
Director WIC, Infant and Child Nutrition

Experts agree on the many benefits of breast milk. If you choose to use infant formula, ask your baby's doctor about Enfamil NeuroPro EnfaCare.

#### Instructions for Preparation & Use

**WARNING:** Your baby's health depends on carefully following the instructions below. Use only as directed by a medical professional. Improper hygiene, preparation, dilution, use or storage may result in severe harm. Although this powder is formulated for infants born prematurely, powdered infant formulas are not sterile and should not be fed to premature infants or infants who might have immune problems unless directed and supervised by your baby's doctor. Ask your baby's doctor which formula is appropriate for your baby.

Ask your baby's doctor about the need to use cooled, boiled water for mixing and the need to boil clean utensils, bottles and nipples in water before use.

1 Wash hands thoroughly with soap & water before preparing formula.

2 Pour desired amount of water into the bottle. Add powder.

3 Cap bottle and SHAKE WELL.

Use the chart below for correct amounts of water and powder. Use scoop in can to measure powder. Store DRY scoop in this can.

To Make*	Water	Powder
2 fl oz bottle	2 fl oz	1 unpacked level scoop (9.8 g)
4 fl oz bottle	4 fl oz	2 unpacked level scoops (19.6 g)
8 fl oz bottle	8 fl oz	4 unpacked level scoops (39.2 g)

\*\*Each scoop adds about 0.2 fl oz to the amount of prepared formula.

**WARNING:** Do not use a microwave oven to warm formula. Serious burns may result.

**Failure to follow these instructions could result in severe harm. Once prepared, infant formula can spoil quickly.** Either feed immediately or cover and store in refrigerator at 35-40°F (2-4°C) for no longer than 24 hours. Do not use prepared formula if it is unrefrigerated for more than a total of 2 hours. Do not freeze prepared formula. After feeding begins, use formula within one hour or discard.

**Powder Storage:** Store cans at room temperature. After opening can, keep tightly covered, store in dry area and use contents within 1 month. Do not freeze powder and avoid excessive heat.

**USE BY DATE ON BOTTOM OF CAN**

\*Milk Fat Globule Membrane  
 †When used in a program of Enfamil® Premature, Enfamil® EnfaCare® and Enfamil® Infant. Studied before the reformulation of EnfaCare  
 \*Ingredients not genetically engineered. Trace amounts of genetically engineered material may be present in the product, such as from manufacturing environments and process sources. For more information, visit [enfamil.com/nongmo](http://enfamil.com/nongmo)
